Authorization for this examiner's amendment was given in a telephone interview with Mr. Nestor Shust on 12/2/2004.

**In the claims:** Cancel claims 60-77

2. The following is an examiner's statement of reasons for allowance. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior rejections are withdrawn in view of amendment. The closest prior art regarding the newly claimed scope is Kelsey et al. (US 5,071,812), which discloses RIM processes of monomers including norbornadiene wherein the catalyst and cocatalyst are added as separate components in monomer streams. However, the borates disclosed in the reference are all borohydrides, with particular preference to  $\text{BH}_4^-$ . In contrast, the only permissible borates within the scope of the instant claims correspond

to those set forth as formulas II and III at page 27, and do not include the borohydrides of the reference.
